

Face Painting

Face Painting

Enjoyed by children and adults alike and suitable for any occasion.

Our professional face painters are trained to transform faces into creative designs or paint small designs on cheeks and arms.

Ideal for promotions in your centre as a free service, or on presentation of a receipt from a store in your centre.

Circus Workshops

Circus Workshops

A fun way to trial some of the skills and tricks performed by our awesome clowns and other multi-skilled performers. Teaching skills like plate spinning, juggling hula-hoops, diablo, balloon twisting, and you can even learn how to ride a small clown bike.

These circus workshops are extremely popular for school holiday entertainment at shopping centres, festivals and adult team building activities.

Temporary Tattoos

Temporary Tattoos

Like to get a tattoo, but don't like the pain or the cost? Then try our temporary tattoos. Applied with a professional air brush, they look like the real thing and last for days.

Suitable for both adults and children, they are ideal for free give aways, or free upon presentation of a receipt from the centre.
